

I am writing to express discontent at Sinclair Broadcasting's decision to force local stations to air what is essentially a 90-minute political ad.

Sinclair gets incredibly valuable broadcasting rights for next to nothing and then chooses to use them to push the particular views of the company's management, without regard for the trust supposedly invested by the public in exchange for the spectrum allocated.

This is disgusting. Quit giving away my spectrum to people who misuse it! Auction it off or revoke the licenses. But wuit paying lipservice to your mission as regulators.
